Mr. R. B. Hutton came before the council to ask why we need a cable television, and if enough study had been made into this. He was concerned as to the effect the cable television would have on the reception of those who did not want to be on the cable. Mr. Hutton was told that there were quite a number of people who were very anxious to get the cable in town because of poor reception, and did not see why this would effect those not on the cable. It was decided that Mr. McGahey would get in touch with Warren Brown Associates to determine how this would effect people using antennas.

Mr. H. A. Workman moved, seconded by Mr. W. H. McGahey and carried to accept the Second Reading on receiving bids on the T. V. Franchise.
